

MODULE 2

Google Maps (with/without Wifi)

1. Open the app and click on the **search bar.**

2. Type the name/address of where you want to go **(destination).**

3. Click on your destination.

4. Click on "directions".

5. **Choose how** you want to go there (car, bus, walk, bike) and click on **"start".**

6. For written details, click on "directions".

2. Click on "Select your own map".

3. Select the area you need and click "Download".

4. Your map is **now installed** and **ready for use** without Wifi.
